topLingo Development, Inc.
2 Venture, Suite 420
Irvine, CA 92618
www.topLingo.com

Overview

TopLingo Development, Inc. (www.toplingo.com) began building websites in 2001. Since that time, we've become a regional leader in web-based software applications for technology, financial, entertainment/media and other industries nationwide. For 13 years, topLingo has provided B2B and B2C solutions for website and web application development, mobile apps, e-commerce, database design, graphic design, e-marketing, technical training, and secure web hosting. Creative, competitive, and responsive are all adjectives that describe us. TopLingo has launched over 450 web projects. Our clients include Chase, Fidelity National Information Services, HSBC, Air New Zealand, Kia, and Disney.

Qualifications

TopLingo has launched 450+ web applications, websites, and apps. Our clients range from Fortune 500 enterprises to startup ventures at incubators, including:

Staff

Our permanent team consists of 10 full time local employees. We have a small network of contractors which gives us the ability to quickly expand to meet client demand. Each member of the team is a specialist in his or her discipline. We are passionate about what we do and are committed to providing the best possible customer experience.

Organizational Chart

Locations

Our office is located in Irvine, California. This is where all programming is performed. Hosting and managed services are collocated at Level3's tier 1 Tustin facility. Critical applications are mirrored at a regional tier 1 facility in Kentucky. Our server farm is comprised of 18 physical servers and 11 virtual servers, all owned and managed by topLingo. All software and hardware used by topLingo is updated and monitored frequently.

Strategic Alliances

TopLingo has established many strategic alliances over the years including Microsoft, Google, Multiple Listing Service, Apple, Amazon Cloud Services, Authorize.net, and Exact Target, among others.

Pricing

TopLingo quotes one hourly rate for all of our services. Depending on client preference, our services can be retained on a Time & Materials basis at an hourly rate of \$150. Alternatively, we can bid projects out a fixed cost with accommodation for scope creep and updates. Future updates and changes not quoted in the original contract are billed in increments of 15 minutes at the same hourly rate.

Performance Standards

TopLingo adheres to the strictest standards of performance and quality, including PCI compliance on current ecommerce projects. We also pass quarterly security audits provided by multiple third-party firms, including Symantec. This is verifiable by contacting our references, which can be provided upon request.

Corporate Filing

TopLingo Development, Inc. is an S-Corporation, incorporated in California in January, 2007.

Copyrights

TopLingo is a custom website and web software developer providing one-of-a-kind solutions for our clientele. All content developed by topLingo for a given project (programming, graphics, source code content, etc.) becomes the property of the client upon final payment.

Insurance, Lawsuits and Security Audits

TopLingo maintains all appropriate insurance for working with Fortune 500 and municipal businesses. Our insurance includes \$2 million in General Liability and E&O and \$1 million in professional liability and workers compensation. We have the ability to name our clients and provide certification to that effect, if required for a project. Although we've never had to exercise this policy, our clients find it reassuring that we carry serious insurance for their serious projects.
